

Ames Bible College

Ames Bible College- Feb 2004 update

Pastor Vince Rizzo
Feb 02, 2004

Greetings Students and Friends of Ames Bible College,

We wish to welcome all the new students who enrolled in January. As of this writing, we will no longer print the names as we have in the past. The rate of enrollment is excelling our ability to keep up with it as Ames Bible College is not yet a full time occupation for us yet. We enrolled 99 new students here at ABC in January alone.

PHOTO

Remember if possible, we would like to get a photo of you or of you with your family with each application. We post these photos on our prayer wall with the other students enrolled at ABC and pray for God's love, purpose and will to be lived out in your daily lives as to continue to study with ABC.

Please e-mail photos to us as .jpg images and we will scan them. They will be returned to you and we will e-mail you the scanned version. Or... if you have a website, send me the link and I will get the picture from there, scan it and print it out. To it send by e-mail, send to info@amesbible.org. You can also mail your photos to:

Ames Bible College
P.O. Box 4671
North Fort Myers, FL 33918

SEND US YOUR GRADES

Please make sure that once you have completed your course that you send us the grade so we can post this in our database in your file. We need to be able to keep track of your progress so we can give you your certificate when all of the courses are complete and graded.

HELPDESK & CHAT AVAILABILITY

If you look on the ABC website, you will notice a link that says I'm either online or offline. This is connected to the Yahoo messenger. If you click on this, you will be able to chat with us if you have any questions, concerns or comments. We are looking into a better system in the meantime that will show when people are on these pages and we will be instituting a helpdesk tool for chatting. It will be similar but with no software to download for the visitor. This will allow us to ask if you need help and want to chat so look for this in the future. We are always looking for ways to make ABC better able to serve your needs.

Once we get the helpdesk software in place, we desire in the future to allow student volunteers to chat with students from around the world helping them with their studies. If you are interested in joining the helpdesk team, please let us know. We are also doing a periodic evangelistic thrust on yahoo chat or paltalk which gives visitors an opportunity to talk about the Lord and about the courses offered at ABC.

SUPPORT SYSTEM

If the Lord speaks to your heart to send an offering to ABC, please be obedient as we offer the courses for free and we are trusting the Lord to speak to his children to support this work. We understand that many are studying with us who could not attend a Bible College due to lack of finances. If you are a free student and send a gift from time to time as the Lord blesses you, we would greatly appreciate it. It may be free for you but its not free for us and every business, Christian or otherwise, can't exist without finances. Your support makes it all possible.

PRAYER TEAM

Many students that enroll do send us their prayer requests. We are in the process of organizing a prayer team for those students who desire to petition God on the behalf of those students who need an answer from God regarding a specific situation. This is similar to a prayer chain in that when its in the event of a life or death situation, all parties come together in a corporate prayer for that individual or individuals.

Be Blessed

Pastor Vince & Laura Rizzo
